- Submit completed application with the vehicles' logbook (or vehicle logbook application form)**
This application must only be used when adding members to the roll protection **which are not** considered Principal Structure. When adding members that are Principal Structure, a Roll Protection Homologation Application must be completed.
- SECTION TWO: A CLEAR and ACCURATE** line drawing must be provided. New members must be identified by shading.
- SECTION THREE:** Detail ALL members of the rollbar/rollcage and reference each member on drawing in Section Two. The material description, material standard, and the material specifications must be provided.
- SECTION FOUR: Declaration -** Required to be completed by the manufacturer of the roll protection extension and sign accordingly to confirm that the safety structure has been designed, constructed and installed in compliance with the applicable regulations. Extensions may only be completed by the manufacturer of the original structure or with the written permission of the original manufacturer.
- SECTION FIVE: All applicable photographs MUST be supplied of the UN-PAINTED structure and MUST be CLEAR and CLOSE-UP views. NOTE: Quality digital photos are accepted either burned to a CD or e-mailed to technical@motorsport.org.nz**
